CERCLA Radiation\_general\_Larry Douchand 2021.pptx  
Bullet points for Larry D on rad issues 04\_29\_2021.docx

Draft to send to Brigid, Schatzi, and Larry L. Just take a look at the Word file since I cobbled that together from comments I wrote up on other issues (e.g., uranium mine paper last week and stuff for Administrator and AA's on Oak Ridge dispute) and made it a little more generic.

Hello,

In preparation for the April 29 Radiation Overview meeting with Larry Douchand, I have attached two files:

1. A PowerPoint presentation that provides an overview of the EPA Superfund approach for addressing radioactively contaminated sites. This is the typical overview briefing that I give to new managers and outside groups.
2. Since I was also asked to prepare some bullet points for Larry on rad issues he might face, I prepared a one pager (front and back) on why the most basic criticism of the EPA Superfund approach for radiation that he may hear verbally in a meeting is incorrect.
